DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 6-9, 11, 12, 13, 18, 19, and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by PG-PUB 2003/0112744 A1.

Re Claims 1, 2, 6-9, 13, 20, fig. 1 teaches a base station performing the method functions of fig. 2, wherein step 210 monitors the link quality between the base station and a mobile; step 220 compares the link quality (actually received...packet error rate) with a threshold (expectation value), wherein the link quality includes a FER (a packet error rate) [0015 and also see 0033+].

Re Claims 2, 14, refer to Claim 1, wherein if the link quality is above the threshold value, NO, modifying the transmission mode (controlling assignment of radio resources).

Re Claims 6, 7, 11, 12, 18, 19, refer to Claim 1, wherein the threshold value is predetermined.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Art Unit: 2616

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claim 20 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. A program of codes must be stored in a computer readable medium to be statutory.

Allowable Subject Matter

5. Claims 3-5, 10, 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Re in combination with claims 1 and 3; 8 and 10, 13 and 15, prior art fails to teach the mobile providing a recovery period in which a CDI report value offset is made smaller at every detection of error in the received packet data.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Lee whose telephone number is 571-272-3130. The examiner can normally be reached on Monday to Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wellington Chin can be reached on 571-272-3134. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
